

Agri-food and Health Research Laboratory

« L-FST-AS-19 »

Director : Bouchaib BENCHARKI «bouchaib.bencharki@uhp.ac.ma »

Faculty of Science and Technology, Settat

Permanent members:

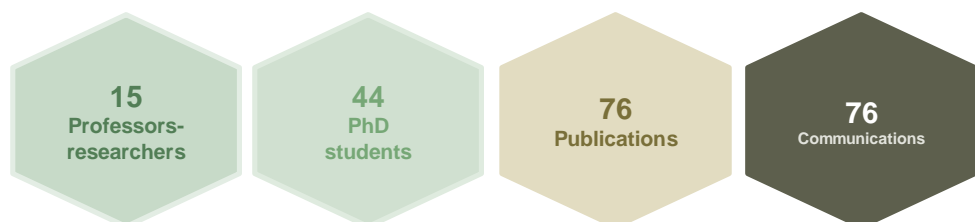

- AASSILA Hinde
- ABABOU Bouchra
- AMZIL Jamila
- BAIDANI Aziz
- BENCHARKI Bouchaib
- BENCHEKROUN Mounsiif
- BOUKACHABINE Khadija
- CHARAF Bahiya
- DARI Khadija
- ESSAYAGH Sanah
- FAKIRI Malika
- HiLALI Lahoucine
- HOUMAIRI Hafsa
- KHATTABI Abdelkrim
- LAMSAOURI Ouafa

Main lines of research:

- ❑ **Research topic 1:** Quantitative and qualitative assessment of carbohydrate and protein reserves in field crops
- ❑ **Research topic 2:** Agronomy and genetic improvement of food grains and pulses using biotechnology techniques
- ❑ **Research topic 3:** Promotion of medicinal and aromatic plants
- ❑ **Research topic 4:** Ecology and characterization of microbial diversity to control the future of communities (engineering of microbial interactions), in order to catalyze bioconversions of interest

Laboratory in Numbers :

Keywords : Agri-food, health, agronomy, medicinal and aromatic plants.
